Career Objective

Seeking to join a team where my creative skills will be an asset to create great design and user experience.

Experience

2012-Present Senior Studio Artist and Tech Lead at Giant Creative Strategy, San Francisco

Currently leading work in the Creative Services Studio team for print, interactive, and presentation campaigns. Specific projects include: Photoshop retouching for new campaign concepts; front-end development of emails, banner ads, and trade show presentations; interactive design for iPad presentations and websites; layout and mechanicals for print campaigns.

2003-2012 Print and Interactive Designer & Developer

Created layouts, mechanicals, presentation materials and interactive work for many companies and agencies with an eye for detail and good design solutions. Clients include:

- **Foote, Cone & Belding.** Html front-end development for Electronic Arts email newsletters.
- **Future US.** Design and production work for *World of Warcraft* magazine.
- **North Berkeley Wine.** Create ad campaigns that include newsletters, flash banners, invitations, postcards, catalogs and wine club communications.
- **Tendo Communications.** Design and production for html email and printed newsletters.
- **Nitrogen.** Healthcare advertising design, production and photoshop concept work.
- **Winning Directions.** Front-end development on political campaign websites.
- **Rivet Global.** Design, production, direct mail and photoshop concept work.
- Additional clients have included **Jewish Community Center, Elsewhere Advertising, Kane & Finkel, Moa Catering, JimmyJane, Rapp Pools, Worksite Wellness LA, Pereira & O'Dell, DE-Solution, LakeHouse Dry Goods, and Complete Web Presence 4 All.**
